The TOP industry event for Technical Insulation, Energy Efficiency and Sustainability

Welcome to the industry event
TI-Expo + Conference

- a perfect combination of knowledge transfer and best practice examples
- Covering everything to do with heat-, cold-, noise - insulation and passive fire protection

TI Expo Conference

Areal Boehler | DUESSELDORF
20 + 21 March 2024

Strong partners for a strong trade fair:

RM Rudolf Müller

AFAG Messen und Ausstellungen GmbH • Organizer of national and international trade and public fairs
Verlagsgesellschaft Rudolf Müller GmbH & Co. KG • Publisher of the trade magazine TI Technische Isolierung

Be there at the industry event TI-Expo + Conference

For yourself, your team, your company and the future of your business

What we have achieved in 2022:

- ✓ Over 60 exhibitors from more than 7 nations
- ✓ 1,500 international trade visitors
- ✓ 30 specialist presentations in the parallel conference, as well as several workshops, product presentations and guided tours for visitors at the trade fair
- ✓ Strong partners from business, politics and the media, and leading companies in the technical insulation industry
- ✓ 90% satisfaction rate among exhibitors

Topics that move:

- Energy efficiency and sustainability
- Cost savings and amortization
- Planning and consulting
- System and process reliability

- Maintenance and services
- Digitalization and Industry 4.0
- Software and app applications
- Logistics: supply and process chains
- Execution and assembly
- Tools and machine equipment
- Recruitment of skilled workers and further training
- Standards and guidelines
- Occupational health and safety and safety aspects
- Circular economy and disposal

Day 2: Thursday, March 21th 2024

- Opening hours Expo + Conference 9:30 p.m. till 5:00 p.m.
- Business and networking throughout the day
- „Special gurest“: Planners for Technical Insulation Projects planned

THE CONFERENCE

Day 1: Wednesday, March 20th 2024

Target group „Insulators, fire protection engineers

- The new DIN 4140
- Digitalization and insulation technology - best practice
- Quo Vadis Insulation Industry in Germany and Europe
- Employee recruitment - new ways in tough times

Day 2: Thursday, March 21th 2024

Target group „Energy Engineers, specialist planners, plant operators“

- Energy saving potential in the construction industry
 - The new energy efficiency standard (prEN 17956)
 - Containment the energy crisis, and much more.
- [Click here for the program!](#)

TI Expo
Conference

Areal Boehler | DUESSELDORF
20 + 21 March 2024

Be there at the industry event for the technical insulation sector

The visitor target groups of the TI-Expo + Conference

CLASSIC VISITOR TARGET GROUPS

These are in particular:

- Insulation companies, insulation processors
- Fire protection engineers

They will be addressed and invited by:

- Exhibitors
- Retailers
- Trade Press Social Media Influencers
- Associations and trade fair organization
- Trade Show Organizer

NEW VISITOR TARGET GROUPS

With the new energy-saving regulation EnSimiMav, there is a need for more target groups to find out about energy-saving options through technical insulation.

These are in particular:

- Specialist planners, building services planners
- Energy consultants and managers
- Architects & facility managers
- Plant engineers and operators

They will be addressed and invited by:

- New partnerships with Industry- and Energy-Associations
- New media partnerships
- Trade fair organization
- Trade Show Organizer

TI Expo
Conference

Areal Boehler | DUESSELDORF
20 + 21 March 2024

Be there at the industry event TI-Expo + Conference

Products, solutions and processes along the entire value chain of technical insulation

Raw materials

Chemical base products, fillers, additives, thermoplastics, polyurethanes, core materials and mineral wool

Semi-finished and intermediate products

Fibers, fiber and foam products, auxiliaries

Finished products

Foam insulation materials, fiber insulation materials, organic and granular insulation materials for technical heat-, cold-, noise- and fire-protection in the application industries, components for heating-, air conditioning- and ventilation-technology

Technology, automation, tools, consumables and machines

Sheathing, pipes, molded parts, machines, fastening technology, vapor retarders, foils, sealing and adhesive tapes, scaffolding and lifting platforms

Services

Research, development, software, CAD/CAM, testing and measuring technology, services, information and media, Associations and institutions

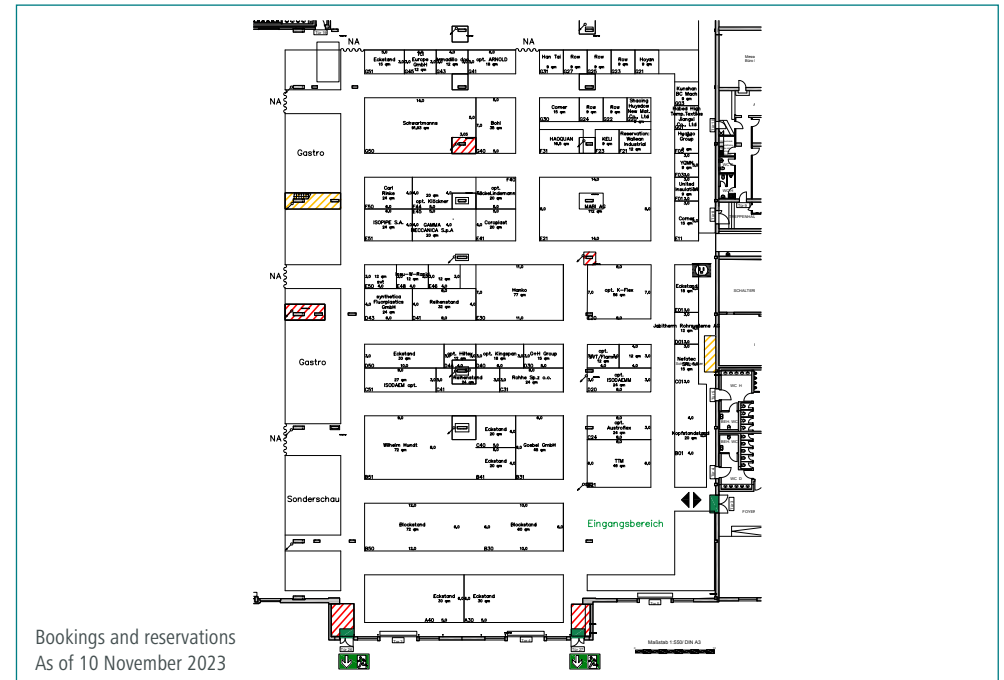

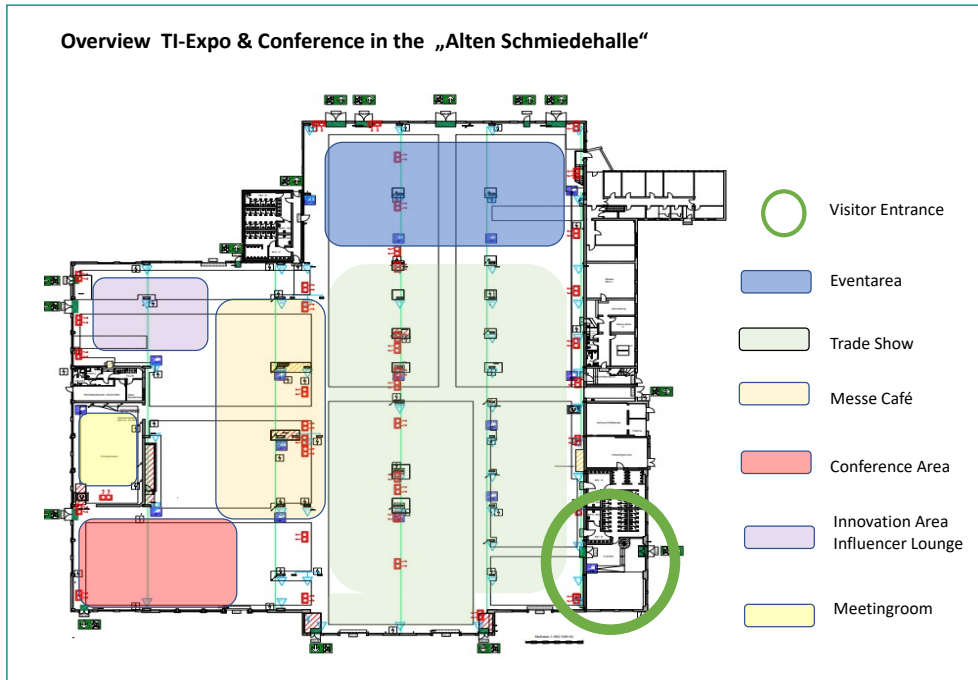

T | I Expo
Conference

Areal Boehler | DUESSELDORF
20 + 21 March 2024

Hall plan

With the Alte Schmiedehalle, TI-Expo + Conference has a very stylish old industrial hall at its disposal, which was renovated in 2012 to meet the most modern requirements for an exhibition and event hall. An 8,500 m² daylight hall with ceiling heights between 10 m -16 m is available to meet all requirements.

TI Expo
Conference

Areal Boehler | DUESSELDORF
20 + 21 March 2024

Added value - program items - special areas

TI-Expo + Conference

Conference Area

The conference will also take place in the exhibition hall (see hall plan) and is open to all visitors free of charge. Specialist presentations will be held here, it also offers exhibitors the opportunity for presentations on current industry topics, innovations or best practices from the application industries.

Live Insulation Demonstrations - Influencer Arena

Live Demonstration of insulation will be shown here. We will invite schools with graduating classes to support recruiting efforts for young talents. The TI-Expo - Insulation-Challenges are planned, more information will follow.

We have invited the 3 most important influencers:

- Todor Gajanovic
- Rob Verbeek
- Graeme Bell

who want to report live in their social media channels.

Industry evening

Everything starts on the first day of the fair at 5:00 p.m., from then on snacks and drinks will be served on the stands. From 9:00 p.m. there will be live music and extended catering with a beer fountain and cocktail bar - the industry meets and celebrates together again.

Focus on energy efficiency and process reliability

We are the solution platform of the future and show the industry the added value of industrial insulation.

At TI-Expo, we bring together visitors and exhibitors and thus solutions, products and requirements. Comprehensive individual lead tracking to follow up contacts optimizes personal success.
